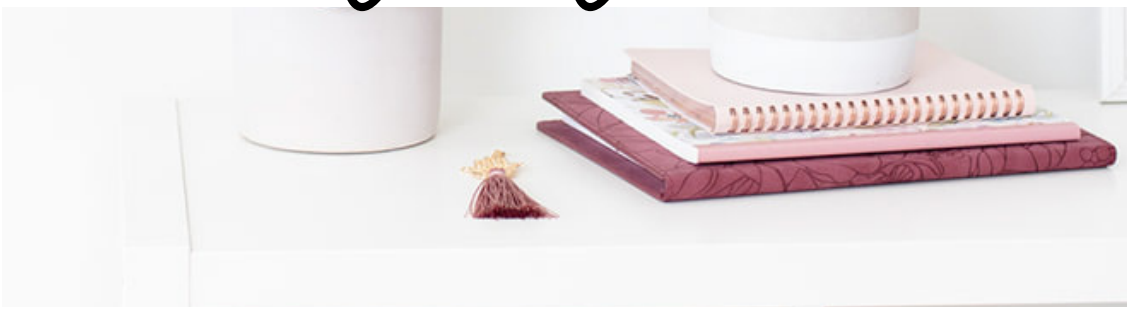
LINKS & *design guide*



This Guide will walk you through accessing and editing your templates step-by-step!

Lady Boss Studio inc.

Thank you for supporting our small Mom-run business! It means the world to me to be on this entrepreneurial journey with you!

This guide will walk you how to access your template link(s) and how to edit them in InDesign. If you ever have any questions at all, please reach out anytime to:

HERE'S the process

Access Your .ppt Files

In most cases, your .ppt file will come in a separate folder accompanying this Instruction Guide, but in some cases, the files are too large to attach.

If you made your purchase from Etsy, your links are below.

Install Necessary Fonts

Please make sure to install fonts prior opening up the Powerpoint Template, this will make it much easier.

Fonts links can be found on the following page.

Edit Your Templates

Here's your chance to fully-customize your templates to match your brand.

You can change the layout, colors and fonts, and add in different Elements to really make it your own!

Downloading Your Designs

You can download your designs in different formats, but the most common will be as a Presentation, Video (MP4) or as images.

You can also present right from within Powerpoint.

Lady Boss Tutorial Library

The below image will give you access to all of our Tutorial Videos. If you are brand new to using Powerpoint, please watch our Powerpoint Slides tutorial" video. If not, you can watch the video or videos most closely related to the templates you purchased. **Since Powerpoint can be a complex program, we've only created video a tutorial and have not included PDF instructions.**
