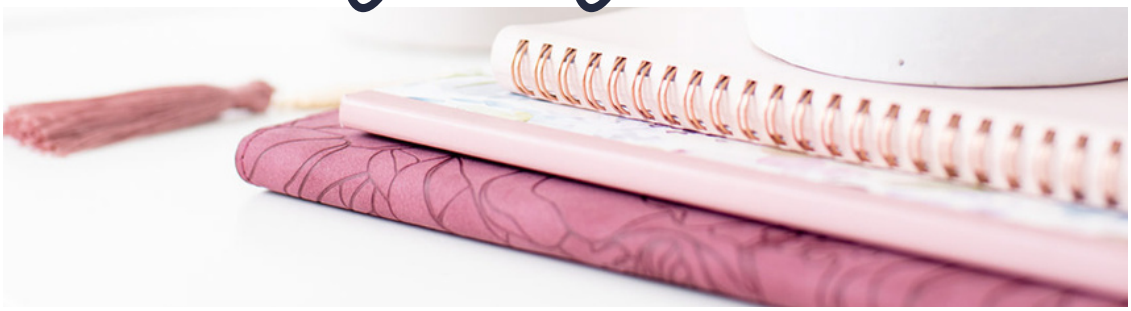
LINKS & design guide



This Guide will walk you through accessing and editing your templates step-by-step!

Lady Boss studio inc.

Thank you for supporting our small Mom-Run business! It means the world to me to be on this entrepreneurial journey with you!

This guide will walk you how to access your template link(s) and how to edit them in Canva. If you ever have any questions at all, please reach out anytime to:

HERE'S the process

Go to Canva.com

Here you will either log into your existing account or you can create a new free account from scratch.

You have the option of a free Canva Account or a Canva Pro Account.

Access Template Links

You will notice on the following page that the links for the templates you purchased can be found.

Once you click on a link, it will open in Canva automatically and you can "Use Template".

Edit Your Templates

Here's your chance to fully-customize your templates to match your brand.

You can change the layout, colors and fonts, and add in different Elements from Canva to really make it your own!

Downloading Your Designs

You can download your designs in different formats, but the most common will be PDF, PNG and JPEG.

For eBooks and Lead Magnets choose PDF, for Social Media type graphics choose JPEG.

YOUR template links

Opening Links in Canva

When you click the template link(s) below, they will automatically open up in your browser, in Canva. You will then be notified that a template has been shared with you. Select "Use Template" and the template will open and be read for editing.

Special Note: Canva works best on a desktop or laptop and Google Chrome is the best for Canva. That's not to say you can't use a tablet, but more features are available on desktop and laptop.
